DETAILED ACTION

Claim Rejections - 35 USC § 102

Claims 1-5 rejected under 35 U.S.C. 102 as being clearly anticipated by Applicant's own admission in the second paragraph of page 4.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lach et al in view of Pelrine et al ("Electrostriction of Polymer Films for Microactuator").

With respect to claims 1 and 4-5, Lach et al disclose in **fig. 5** a membrane structure comprising a membrane, a frame **10**, a plurality of threads **11**, and actuators **3**.

The reference does not disclose a polymer actuator.

The Lach et al disclose in the last paragraph of column 5 that the actuator is preferably linear. Pelrine et al disclose in **Fig. IV** a electrostrictive polymer actuator with high strains and good actuation pressures. It would have been obvious to one of ordinary skill in the art to use the actuator of Pelrine in the structure of Lach et al for the purpose of providing an actuator with high strains and good actuation pressures.

With respect to claims 2 and 3, Pelrine et al disclose in **Fig. VI** that the actuator expands and contracts.

Response to Arguments

Applicant's arguments filed 4 September 2002 have been fully considered but they are not persuasive. Applicant is not permitted to remove **fig. 2** from the prior art without a 132 affidavit. See MPEP 706.02(b). The 102 rejection will be withdrawn after the affidavit has been filed.

Allowable Subject Matter

Claims 6-18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 19-30 are allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
